

Dear Commission,I find it difficult that our industry is once again being accused of a lack of local content. Our stations provide local news, traffic, weather along with interviews weekly with city and county officials.

Our Rock Station 101.5 KFLY features local artist on Sundays.

KRKT and KDUK our Country and CHR stations both are heavily involved in the community. Each has raised \$75,000+ for Country Cares For Kids and The Childrens Miracle Network.

Our commitment to the community never wavers. Local content is a priority!
